The format of the event, as the first “**Interactive European Course on Vulvo-vaginal Disease – Learn with the Experts**” emphasizes the vital role of education, the diffusion of knowledge and the interactive multidisciplinary discussion in such an important field of woman’s health. Clinical cases, video presentations, interactive sessions together with free-communication sessions will cover all the **topics of vulvo-vaginal diseases, from basic vulvology to advanced cancer reconstruction, from uro-gynaecology to ano-rectal problem affecting the vulva**, contributing to developing the status of the ECSVD and its members in the complex area of lower female ano-uro-genital disorders. The late warm summer of Torino will allow you to fully explore the town with its museums, theatres, concerts, restaurant and cafès, in a unique Italian baroque atmosphere, with historical buildings, elegant squares, lovely arcades and pretty shops. To be “made in Italy” this experience will try to transmit the culture, history, refinement and hospitality.
